

SES SOLAR
CO-OPERATIVE

Join the SESSC Board of Directors

With a new website, new share offering and new project on the way, it's an exciting time for our co-op and a perfect time to join the Board!

The SESSC Board manages the co-op on behalf of its members and our directors come from a variety of backgrounds. Each has unique skills they contribute to different aspects of managing the co-operative from an operational and strategic perspective.

Any member may nominate an eligible member who agrees to allow their name to stand for election or members can self-nominate by sending their name and a short bio to hello@sessolarcoop.ca.

We are seeking nominations to fill five director vacancies at the 2023 AGM. **Nominations are open until June 7.**

Experience in the renewable energy sector is not a requirement to be a director - it's more about the attitude! Ideal directors are enthusiastic, committed, reliable and collaborative.

We need a wide range of skills, including in the areas of:

- Accounting principles
- Administrative work (e.g. data management)
- People skills
- Website and graphic design
- Writing and editing prose
- Marketing and sales
- Technical knowledge regarding solar installations
- Negotiation abilities
- And many more...

The SESSC Board is a working board with time commitments in between meetings. We have many experienced directors and advisors on hand to help orient new directors to the role.

Have questions? Reach out! We would be happy to discuss any questions you may have about the role.
